Bulletin Jul22

Welcome to this month's Bulletin.

In the news right now it is unfortunate that all we seem to hear is doom and gloom. If it's not the Ukraine war then it's the economy heading into a recession with just one problem after another.

However, we can report some good news on the bonsai front, nearly all of the bonsai shows held in June have had record breaking attendances. In addition, many clubs have experienced an upsurge in new members. Whether it's the BBC coverage of bonsai over the last year, Harry Harrington highlighting bonsai on Gardeners World or the more recent coverage given to bonsai at this years Chelsea show, we will never know. Perhaps also a massive influence on this sudden upsurge are the hard working individuals who promote bonsai at large agricultural shows up and down the country. Sometimes over a period of days, these types of show have thousands of visitors all admiring the tree displays and interacting with keen bonsai enthusiasts. Even the people putting on displays at local garden nurseries. They may have fewer visitors than the big shows, but they are definitely all helping to promote the hobby. I remember a conversation along time ago with a certain sales person in my younger days, "never kid yourself you are promoting something unless you are putting your product in front of new faces every day." Perhaps that's what's happening with bonsai right now? So, to all of you many hard working bonsai enthusiasts who promote bonsai, and you know who you are without mentioning names, well done and a big pat on the back . Keep it up.

It seems a long time ago now, in fact three and half years ago that the association organised an auction on the 27Jan19 near Heathrow Airport. The auction was accompanied by an unusual show high-lighting aspects of bonsai that often get overlooked at most UK events, Suseki, Saikei and Mame trees. The event proved highly successful, attended by several hundred people passing many favourable comments. Several people have recently expressed a wish to repeat such an auction and show. As a result I therefore would like to ask the general membership for their respective comments as to whether we should or should not repeat the event? Please email us your comments over the next month so that we can gauge the support another such event might receive, thank you.

The next steering group meeting on Zoom is scheduled for Monday 4Jul22 at 1900.hrs.

Bonsai Events

Jul22 & Aug22

4Sep22 Sun
East Anglian Bonsai Show
Kesgrave War Memorial Community Centre,
Twelve Acre Approach, Kesgrave, Suffolk. IP5 1JF.
(Kesgrave near Ipswich Suffolk)
Following on from the success of last years
show we are looking to continue the growth of
the event. For more information on the scale
and size of this show please read the 2021
report with pictures on the UK Bonsai
Association show reports page of their web site.
The venue has free parking and plenty of room
to expand into. We are looking for more traders

and are only charging £10 per 6ft table
(supplied) to help the growth of the show
each year. We had 6 clubs showing trees
last year and they are all returning. If
you're a club or trader and would like to
join us please contact me.

This year we have a demonstration by
Will Baddeley. Will specialises in native
European species and is renowned for
creating natural looking deadwood.
Look forward to hearing from you,
kind Regards, Dave Fryer.

11Sep22 Sun
Heathrow Bonsai Show
At Bracknell
Bracknell Leisure Centre,
Bagshot Road, Bracknell, Berkshire,
RG12 9SE.

We would like to confirm all display and
trading spaces at this forth coming show
have now been filled, 36 clubs displaying
and 35 traders selling, thank you for
your support.

17-18Sep22 Sat & Sun
Bristol Bonsai Society Event
Kevin Willson Weekend Demonstration
and Workshop Extravaganza at Failand
Village Hall,
Oxhouse Lane, Failand, Somerset. BS8 3TS.
Sat 0900-1600.hrs Demonstration on a
huge Mugo pine.
Sun 0900-1600.hrs workshop
The workshop is now fully booked and
because of the fantastic reaction all
visitors will have to book tickets at £10 in
advance for both Saturday and Sunday
events. For further information please
contact John Trott 07711.205806.

17&18Sep22 Sat & Sun (Confirmed)
Greenwood Bonsai Bash Show
Ollerton Road, Arnold, Nottingham, NG5 8PR.
Due to popular demand, the first post-
covid Greenwood Bonsai Bash is back, a
show of specimen trees and Corin
demonstrating all weekend.

18Sep22 Sun (Confirmed)
South East Bonsai Fair
Little Fant Farm, Farleigh Lane,
Maidstone, Kent. ME16 9LY.
To book a sellers pitch please
Contact: Adam Hadley 07765.522117
Email: hadoribonsai@gmail.com

25Sep22 Sun (Confirmed)
Doncaster Bonsai Experience
& The National Shohin Exhibition
Markham Grange Nursery,
Longlands Lane, Brodsworth,
Doncaster, South Yorkshire. DN5 7XB.
The cut off date for traders and
exhibitors for this event has now passed,
John and Karen confirm 90 traders
tables and 22 exhibitors have now
booked. If you missed the cut off date
and are still interested in exhibiting or
trading please contact John to go on the
reserve list.

The categories for the show are as
follows:
Best Shohin
Best Evergreen
Best Accent

Best Deadwood
Best Deciduous
Best in Show
And new for this show
Best Kusamono

UKBA ExpoBonsai UK 2023.

K2 Leisure Centre,

Pease Pottage Hill, Crawley, West Sussex. RH11 9BQ
Tree submissions to exhibit at ExpoBonsai UK

are now open and will run until 31Dec22.

Please e mail ebuk18@gmail.com to receive full
details of what is required. Only submissions to
this address will be accepted. The show will be
run in a similar way to the 2022 show with a

few small niggles attended to as we learn the
venue. Thank you.

UKBA Membership

Thanking you for your support, today 1Jun22
UKBA membership stands at a total of 2172,
expanding daily

Monthly Tasks

Below is a list of bonsai tasks to be carried out
during the month of July, it must be adapted to
your localised conditions and is meant only as a
general advisory list of tasks for the bonsai
enthusiast.

Bonsai in July

Summer is now here hopefully and your trees
should be actively growing and enjoying the
longer daylight hours and sunshine and
producing a lot of new growth. Here is a quick
generic guide to bonsai in July but for
individual species you may need to adjust the
guidance as well as for the developmental stage
your bonsai trees are at.

Watering:

Continue to check your trees daily and water as
required and you will have noticed they will be
starting to take up more water and dry out
quicker. This is now the time to really increase
your watering with the leaves fully out and
hardened off. Water in the mornings ideally
and if necessary water more than once a day.

Re-potting:

None required unless emergency repotting
required where the pot is damaged or there is a
pest concern or drainage issue. Try not to
damage the roots during an emergency repot
and just place the tree in another pot of the
same size or larger for the time being until the
correct repotting season without root pruning
or disturbance.

Feeding:

This is the time to start feeding much more
regularly and heavily while the trees are
actively growing.

Organic feeds are preferable to chemical feeds
including products like liquid seaweed and this
can be fed daily as part of the watering regime
or less often depending on the stage of
development of the tree.

Ideal feeding at this time is liquid feed as the
watering regime has picked up and you can
feed with each watering, and the general rule is
little and often.

Pruning:

This is the time to prune back all excessive
growth on deciduous trees and start to work on
removing the larger leaves on a regular basis in
preference of retaining the smaller leaves
forming after the larger leaves have been
removed.

It is also a good time to carry out a full or
partial defoliation of broadleaved trees but only
if the tree is healthy enough. Ensure that if you
do a full defoliation that you place the tree in a
more shaded position rather than in full sun
following a full defoliation.

Trimming:

Now that the leaves are present continue to
maintain the shape through regular trimming
and remove the terminal shoot in some species
to aid with creating a more compact form.

Continue to prune tropical trees to
maintain their shape and trim the new
shoots. Leaf cutting is also applicable for
some species like maples but ensure that
they are vigorous and healthy before you
carry out leaf cutting and it may be more
suitable to do a section of % at anyone
time.

Root pruning:

This is not applicable at present unless
any trees are being repotted but for the
majority of species they should already
have been done.

Insects and pests:

Check for the repeat infestations of bugs
and pests like green and black fly, red
spider mite, scale insect, mealy bug as
well as vine weevil beetles. With the
warmer weather insect pests can start to
build up numbers and are more likely to
appear on the shoots and leaves and start
causing foliage damage.

Watch out for the onset of mildew and
prune out any damaged leaves or treat
any infestations if found. Spray with
insecticide as required or once a month
for pest prevention using products like
SB Invigorator. Methylated spirits cotton
buds are an effective method of
removing scale insects from branches.

Moss and weed control:

Continue to keep this in check and treat
or remove unwanted moss and remove
any newly forming weeds.

Wiring:

Wiring can be started on some of the
larger branches if the tree has been
defoliated but otherwise it is not a good
time to wire as the process can damage
the foliage.

Protection:

Protect from the heat of the sun if the
trees have a thin bark like Japanese
Beech and provide additional shade and
wind protection to avoid leaf scorch or
wind burn of the leaves.

Assessment:

Continue to update your bonsai records
and photograph your trees to record
their progress.

Tools:

This is something everyone should do
each time they use their tools but often it
is not easy to do depending on how often
you are using your tools. However, it is
good practice to clean and sharpen your
tools after use and this is a good time to
go through your tool kits and clean them
up before the start of the pruning season.

Display areas:

If you have trees out in display areas
check that they are not drying out or
getting too much sun and ensure they
have shade if required as the
temperatures during the day currently
are fairly hot.

Propagation:

This is a good time to take semi ripe
cuttings from this years growth.

Interview

UKBA interview with Adrian Long

**A talent for overcoming adversity
My Personal Journey in Bonsai**
Adrian Long (Gadget)
Secretary Kent Bonsai Club
Root stand / Display Stand Maker

Determination overcomes major obstacles to keep styling bonsai. The reflections of one man who found a way around his problems and in so doing has produced new equipment to be used by the rest of us able bodied bonsai enthusiasts.

How did you get started?

I was first introduced to bonsai about 25 years ago by my close friend Philip Presland and his wonderful Hornbeam. At that time I had no idea that the seed had been sown for me to come and love our wonderful hobby in all its shapes and forms. At that time, I was still too ill to have a fulfilling hobby. In 1987 I was involved in a life-threatening motorcycle accident. I lost my best friend as well as my left arm below the elbow, as I was left-handed that was particularly significant. Recovering from mental trauma PTSD, brain damage and multiple other injuries I had to make a new life for myself. I set my mind to finding ways to overcome my difficulties and general health problems. I decided Bonsai was the hobby I wanted to do. My business at the time was - water Gardens, Koi Ponds etc. but suddenly I couldn't even hold a conversation let alone work. I therefore passed the business on to my son. I decided to purchase a few cheap starter trees to learn on, I soon learnt I just couldn't carry out basic tasks and was getting frustrated and embarrassed. I found it difficult to hold my trees for styling. I had reached the point of giving up the hobby until I decided to do what I know best. I went to my workshop and designed a worktable that could be beneficial to both the disabled and abled bodied hobbyist alike." The RTT". (Rotating, Tilting, Table) with me using it in the picture above. Not only for me but many enthusiasts in the UK now have this wonderful new turntable. It has become an invaluable part of their bonsai equipment.

Who was your first Teacher?

I Finally plucked up enough courage and joined Maidstone Bonsai Society in 2009. I received a lot of help and support from Philip Presland and other members of the club. For the first time I was treated with respect. Simon Haddon played a big part in my basic learning and wiring techniques. In 2010 I became the Secretary of the club. During the latter part of 2012 I left Maidstone bonsai society and moved to Kent Bonsai Club as secretary. I remain as secretary to this day. Following 2012 I visited Tony Tickle's (Burrs) each year to gain knowledge and skills until it ceased. I have

spent time with Lee V, Harry Harrington, Pavel Slovak and have visited Corin Tomlinson's weekend bash each year it has been on, gaining knowledge from his all-day workshops and watching him and his demonstrations. In 2018 I met Sean Smith the world renowned carver of root stands, daiza, and bonsai stands. I was fortunate to have a workshop with him on carving root stands and I remain in contact with him to this day.

A Shohin rack made by me for a customer.

Can you recommend one or two Bonsai books?

My favourite book has always been "The complete book of bonsai" By Harry Tomlinson first published in 1990. I still use this book for reference. Great pictures and easy to understand text. I also enjoy the books from Harry Harrington "Inspirations 1&2" with his modern approach and skills.

"BERT" – My Hawthorn Raft collected from Wales.

Your thoughts on Bonsai?

Having a business for many years designing and building Koi ponds and Japanese water gardens I have grown to love all things Japanese, especially Koi Carp. I am fascinated by the Japanese techniques in fine wood working and carving of display stands. Over the years I have seen many changes in bonsai. Mainly the dreaded internet has flooded us with information NOT all of it informative or true. We also seem to have more Chiefs than Indians daily, giving out their opinions on social media. Club membership has also suffered following covid with hobbyists drifting away from bonsai into more home-based hobbies. In the future I would like to see the younger generation become interested in bonsai in some form or another. Let's hope all Clubs can promote this in the future and at shows and I would like to see more disabled people join this wonderful hobby of ours.

Have you ever experienced bonsai abroad?

To date I haven't been as far as Japan, but my one dream is to visit before it's too late. Health and family have always come first. Sadly, years seem to pass very quickly. I would also visit Sean Smith in U.S.A to learn better techniques in carving and building stands etc.

What is your best Achievement?

I feel I have two very different best Achievements so far British New Talent Competition in 2019 although not winning I am the only one arm man or disabled to have ever entered. I have now proved to myself and other people that it can be done. In 2019 my Sicilian Olive (Ollie) was chosen for the UK NATIONAL SHOW IN BURY. I received a certificate of excellence. I cried with emotion. I felt all the hard work over the years were worth it. "Ollie" in an Erik Krizovsky Pot. The stand made by me.

Do you have any future ambitions?

Get more experienced in carving root stands, daiza and making display stands. Learning the art of Japanese Lattice design and making, so I can incorporate this into my display table designs. Having a happy life involved with all bonsai and Kent bonsai club.

Root stand hand carved by me from Ash

Just some of the attachments used

Do you have a favourite tree?

Crateagus Oxyacantha 'Pauls Scarlet' Hawthorn. I feel every Hawthorn I see has endured a hard life. I get great

satisfaction working on these trees. I also have my nemesis because of my disability and that's Satsuki Azalea. I find the new branches are too brittle for me to wire and work on. Although my preference is for Chuhin size trees. I get great pleasure from all sizes of trees I also get great pleasure from Saikei and larger landscapes.

Do you have any other interests or hobbies?
I follow all types of motorcycle racing especially BSB and F1. Speedway is by far my favourite. I used to ride speedway as a young man retiring in 1984. Made from Red Mallie Burr Bamboo leather bound accent stand The journey I have been on since my motorcycle accident has not been easy, I am still finding new ways to wire, style and carry out all the other jobs required. Nowadays I spend most of my time in my workshop producing root stands, shohin racks, Jittas, and display stands. If I have one piece of advice to give to anyone faced with a new disability it would be, never give up, there is always a way to adapt and enjoy this beautiful hobby. Join a Club near you and of course join the UKBA for all bonsai related items, shows and advice. I spent too many years in the wilderness trying to learn just from books and shows. For more information on the above product mentioned, and all products available from me Tel 07710615861 or Email: adrian58long@btinternet.com From the beginning of 2023 I am available to visit clubs to give a practical introduction in carving root - stands. Just contact me.

Collectables Pin Badges

Please check out the pin badge section under collectables on the website, if you have any badges we have not listed, please send us an image of the badge and we will add it to the section. Thank you
